Section A **Complusory**

Question 1

"Despite the announcement of a complete lockdown in March 2020 in several countries followed by other phases of relaxation in response to the global pandemic Covid 19, various government operations regarded as "essential services" including logistics and transport were allowed to continue to operate to ensure that public service delivery is provided. Now more than ever before technology is no longer an afterthought as continued public service delivery should be enhanced despite the environment".

a) Explain any five (5) applicable technologies that may assist in the movement of goods around the globe despite physical restrictions that maybe posed by the environment. **(15 marks)**

b) Advice a developing nation of the five possible challenges in embracing the technologies in the movement of goods. **(10 marks)**

SECTION B

Answer any THREE questions.

Question 2

Examine any five (5) distribution channels at the disposal of a logistics officer in the movement of goods. **(25 marks)**
